

F.l.u.i.d architecture was set up in 2005 as a platform where different disciplines would collaborate for an architecture that is coherent, both emotionally and intellectually, from concept through detail. Working on projects across the spectrum of scale, from a furniture piece to large-scale buildings and urban design projects, the team endeavours to understand contemporary conditions suggesting appropriate solutions. "We are looking to create an architecture that is 'flexible' and 'active', an architecture that is not 'fixed' and is likely to change either by the users or the situations."

H F.l.u.i.d Architecture ξεκίνησε τον Γενάρη του 2005 ως μια ομάδα με σκοπό να φέρει μαζί και σε συνεργασία διάφορους κλάδους και άτομα με κοινές αναζητήσεις και προβληματισμούς. Και δεν περιορίζεται μόνο σε άτομα από τον χώρο της αρχιτεκτονικής, του design, της αρχιτεκτονικής τοπίου, είτε ακόμα της διακόσμησης και των τεχνών (καλές τέχνες, γραφικές, performance arts, κινηματογράφος). Η ομάδα είναι ανοιχτή ακόμα και σε χορογράφους ή χορευτές που ασχολούνται με την οξεία του σώματος με τον χώρο.

F.l.u.i.d architecture 2005 yılında düzenlendi, birçok mimari dalların genel kapsamdan detaylı bir platforma indirilip toplanması, duygusal ve de mantıksal olarak uyum içerisinde çalışmasını sağladı. Ölçekli tayf projeleri üzerinde çalışmak, bir parça mobilyadan dev binalarda kentsel tasarımı projelerinde, takım modern düşünceyle var olabilecek sorunların önüne uygun çözümler getirmektedir. Biz 'esnek' ve 'aktif' bir mimari platform; 'kalıplaşmış' değil kişiye ve duruma göre değiştirilebilir mimari oluşturmaya çalışıyoruz.
